

ROOTT

System overview

Excellent 5 years clinical evidence with ROOTT implants

Average survival rate

The post-market clinical follow-up study showed a significantly high average survival rate of 97.86% of the entire ROOTT Dental Implant System.

Report from 2021-05-24

High quality and safety standards

Medical devices under this catalog are in compliance with established EU regulatory requirements.

Multiple possibilities

ROOTT R

Freedom and flexibility with switching platform and morse taper connection for all prosthetic components & all implant sizes of

Ø: 3.0–5.5mm
L: 6–16mm

Easy management

One-piece implant

Screw retained

Complete control & easy maintenance

Screw-retained restorations represent a secure and easy way to repair, maintain prosthesis, and treat peri-implant tissue inflammations more efficiently without damaging the suprastructure. ROOTT P, ROOTT M, ROOTT S are designed to use in combination for a cement-free full jaw restoration with 60 degrees between implant axes. Also, can be used with all ROOTT implants.

ROOTT **P**

Long enough to tolerate the distance between pterygoid area and maxilla

Ø 2.5 prosthetic screw

Extreme condensing threads for excellent stability

L 16–26mm
Ø 3.5–4.5mm

ROOTT **M**

Designed for posterior jaw area

Ø 2.5 prosthetic screw

Condensing threads

L 6–20mm
Ø 3.0–8.0mm

ROOTT **S**

Excellent aesthetics in front jaw bone

Ø 1.8 prosthetic screw

Condensing threads

L 8–16mm
Ø 3–3.5mm

- ✓ Less invasive
- ⌚ Immediate loadings
- 🔧 Avoids sinus lift & bone grafting
- 👓 Multiple restoration

AM AMS

Direct scan

Ultra resistant Ø2.5 mm screw

- 🔩 Easy handling
Less likely losing a screw
- 🦷 Excellent fixation
Withstands occlusal forces

Manual

TRS **R C C S M S**

A large surgical kit tailored for experienced specialists seeking a versatile solution to address multiple clinical scenarios and implant procedures. This flexible kit offers a convenient bundle of tools that effectively cater to clinicians' needs.

Manual

TRS-mini **R C C S M S**

TRS-mini is an ideal choice for specialists who are looking for a compact and lightweight surgical implant kit that covers most scenarios. It includes essential tools such as implant drills, basic drivers, an abutment extractor, and a ratchet, providing a comprehensive response to your individual needs.

TRR **R**

A large surgical kit tailored for experienced specialists working with ROOTT R implants. With a simplified protocol and increased efficiency through reduced drilling steps, this kit enhances the overall implantation process.

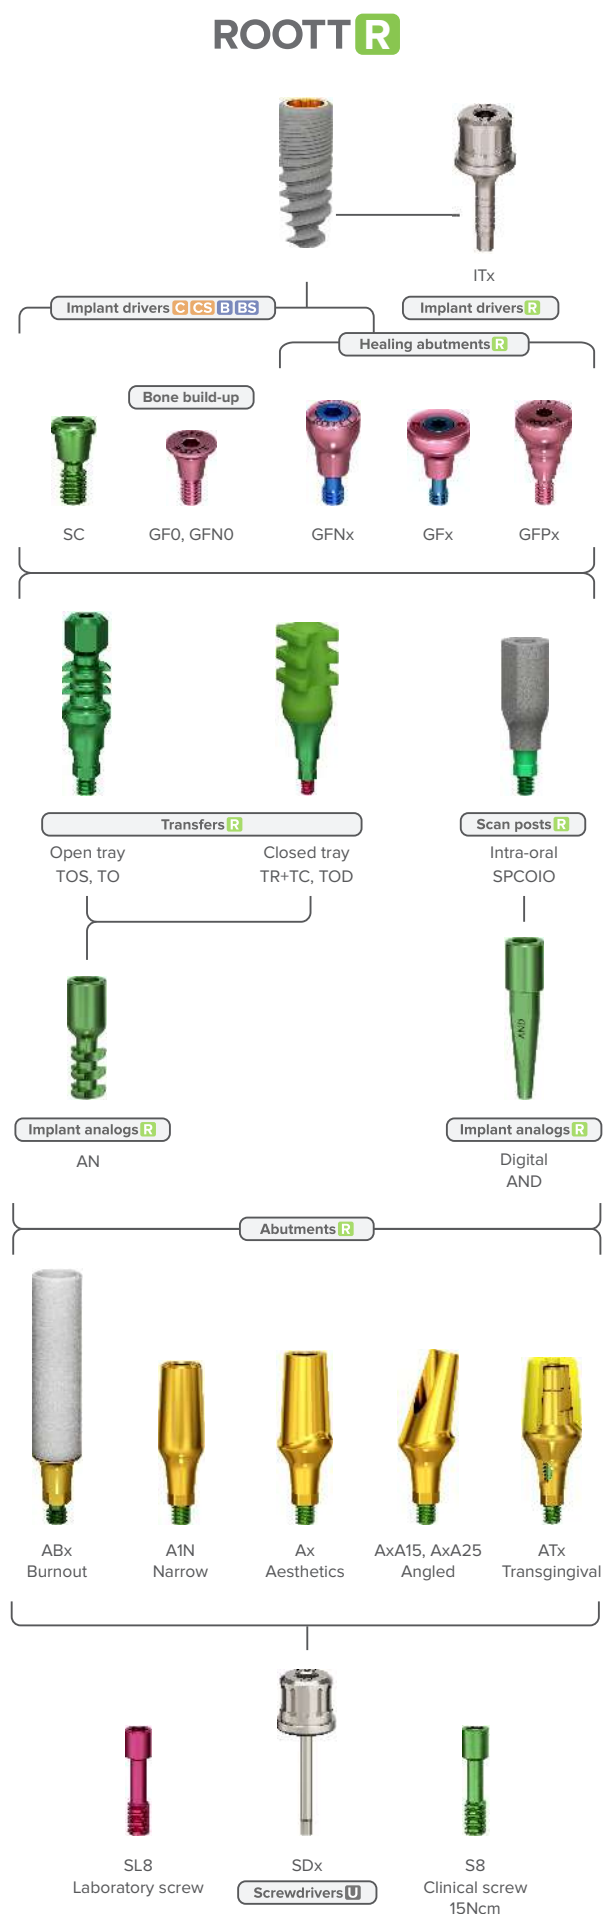

Manual

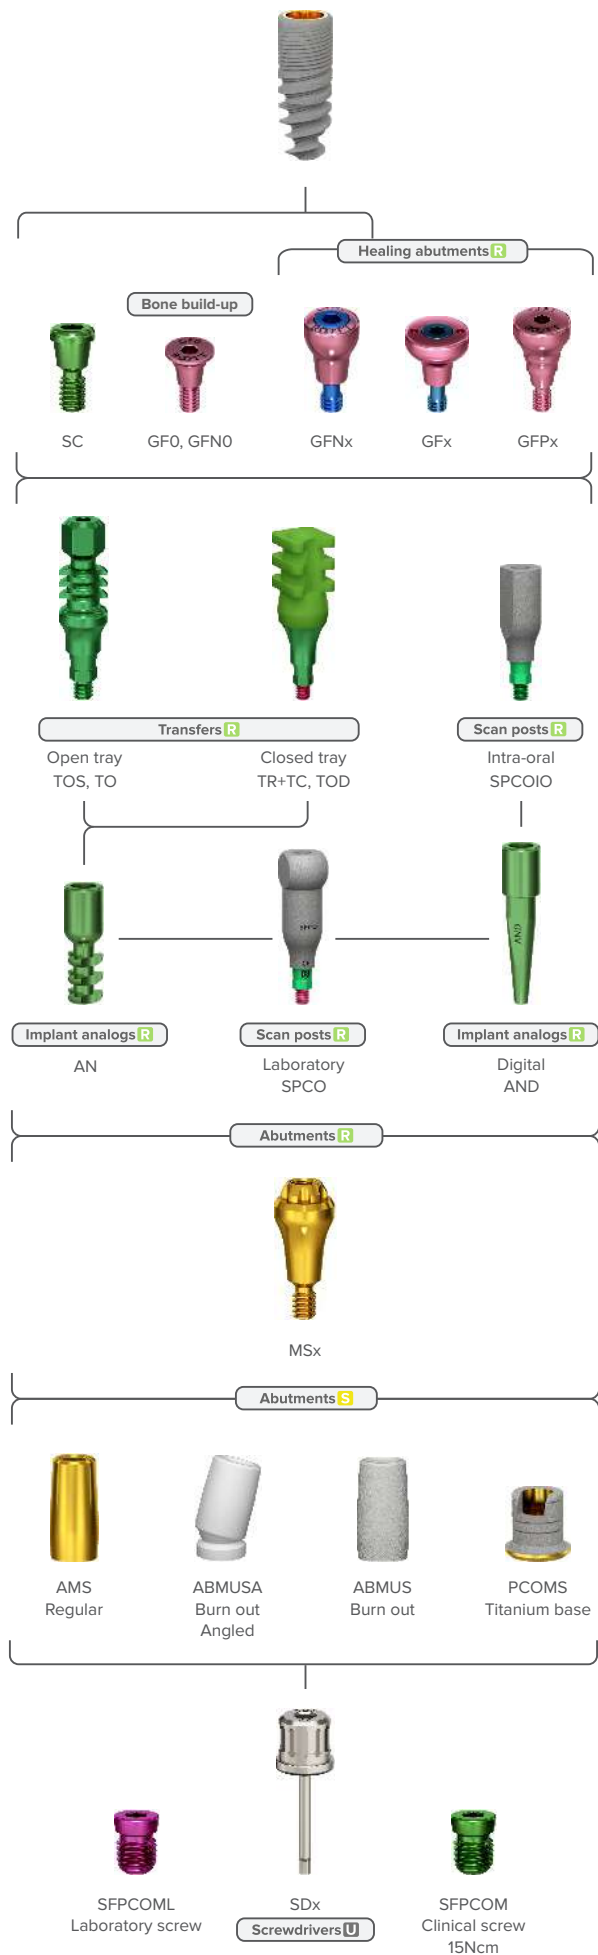

TRR-mini **R**

TRR-mini kit offers a hassle-free solution which is designed for specialists working with ROOTT R implants. It features ultra-sharp drills in various lengths, enabling effortless and immediate implant placement. With a simplified protocol and increased efficiency through reduced drilling steps, this kit enhances the overall implantation process.

Meet the intelligence with DIGITAL SOLUTIONS

Time-efficient and accurate options enhance quality possibilities and bring the modern approach to the dental industry that dental professionals seek.

Precision is essential considering the right angle, size, depth and width for dental professionals; therefore, ROOTT offers the digital workflow allowing the possibility of designing a complete dental solution. The digital library will provide options and introductions into using software and transferring the skills into the digital workflow from the tools required to design the exterior to components offered to solve basic or complex cases.

Together with specialists for standards that matters

ROOTT has always sought excellence and reliability by utilizing innovative approaches and solutions right from the design stage. Since its foundation, ROOTT has put research and cutting-edge innovation at the forefront of its mission. This is the result of diligent, dedicated work and close cooperation with the Open Dental Community (Luxembourg) – an independent, international team of expert dentists and academic professionals, which provides a significant link between industry and dental professionals.

ROOTT never compromises on functionality and simplicity dedicated to dental professionals.

Simplicity

Built with profound knowledge and insight of what is necessary for practitioners to achieve perfection in their successful clinical practice.

Functionality

To ensure functionality and flexibility every product is probed, diligent and dedicated for every specialist need. Each and every single piece of product is created with the research of doctors.

Innovations and development network of dental specialists around the world.
Life learning concept and constant improvement of global dental knowledge and skills.
